Skills

- Programming (C#,Python,CSS,HT ML)
- Networking
- Information Security
- Linux
- Customer Service

- As a passionate and dedicated cybersecurity professional, I bring a robust foundation in **network security, system operations, and programming**, underpinned by a practical associate's degree and ongoing bachelor's studies in cybersecurity at the University of Oklahoma. My **hands-on experience** as a volunteer and board member at Oklahoma Polytechnic Associations for Learning (OPAL) has honed my skills in security fundamentals, network segmentation, and operating system security. **Fluent in C# and Python, and Linux** I am committed to continuous learning and advancing the safety and integrity of digital infrastructures. My background as a wrestling coach and community volunteer reflects my strong communication skills and ability to lead and educate in high-pressure environments. I am driven to leverage my expertise to tackle the evolving challenges in cybersecurity, particularly in securing Internet of Things (IoT) devices.

Projects

All projects listed are available to view on GitHub @Jojo174code

- Feistel encryption algorithm (Python)
- Hang-man game (C#)
- Rock-Paper-Scissors server connection gam (Python)
- Keylogger (Python)
- Funko pop webpage (html & css)

Experience

Tulsa County Sheriff's Office / Detention officer II

May 2022 - August 2022,

As a Detention Officer, I maintained facility security, supervised inmates, enforced regulations, responded to emergencies, conducted searches, and escorted inmates. Documented incidents, collaborated with staff, and ensured a safe environment with strong communication and problem-solving skills.

Education

Will Rogers High School/ High school diploma

August 2019 - May 2022, Tulsa, OK

Carl Albert State College / Assoc. Cybersecurity

August 2022 - May 2024, Poteau, OK

OU Tulsa / Bach. Cybersecurity
August 2024 - PRESENT
